Certain 100% foreign-owned domestic (U.S.) disregarded entities may be treated as domestic corporations for U.S. international tax reporting purposes for tax years beginning after December 31, 2016. A U.S. Limited Liability Company (LLC) is classified as a disregarded entity if it has one owner and has not made an election to be taxed as a corporation. Such LLCs that are wholly owned by a foreign (non-U.S.) individual or entity, directly, or indirectly through one or more other disregarded entities are considered domestic corporations subject to the new reporting requirement. If the LLC is owned by a U.S. C corporation, it is generally not subject to this rule.

Pursuant to Code §6038A, **any LLC affected by the above rule is required to timely file Form 5472 in a year it has "reportable transactions", even if it is not otherwise required to file a US tax return.** To satisfy the requirements of the new regulation, the LLC is required to file a pro-forma Form 1120 "U.S. Corporate Income Tax Return" to transmit Form 5472 to the IRS. Failure to timely comply could result in a penalty of US \$25,000 (for tax years beginning after December 31, 2017) for each noncompliance. A separate Form 5472 must be filed for each related party the LLC had reportable transactions with.

Extension of time to file return: A 6-month extension of time to file the return is available and an extension request must be submitted by the due date of the return. In order to file an extension (and the corporate tax return), the LLC must have a U.S. tax ID - an Employer Identification Number (EIN). If the LLC does not have an EIN, an application must be submitted as soon as possible to obtain one. In situations where the non-U.S. owner does not have a U.S. tax ID, obtaining one can potentially take longer than 2 weeks.
