(FOR INTERNAL USE ONLY BY ABITOS, CPAs AND ADVISORS,
FORMERLY KNOWN AS THE BRUNTON STRACHAN & KHAN CPA FIRM)

FOR TAX RETURN YEAR ENDED _____ CURRENT DATE _____

(Each spouse complete a separate organizer)

TO AVOID DELAY WITH YOUR RETURN PLEASE ANSWER ALL QUESTIONS AND PROVIDE COPIES OF NECESSARY DOCUMENTATION

Certain non-U.S. mutual funds, exchange traded funds (ETFs), income trusts, (including those that operate a business or that own rental real estate) and Canadian or other non-U.S. private holding companies may be treated as PFICs, depending upon the nature of their assets and operations. PFICs generally are taxed very adversely in the US. Exceptions may apply if they are owned in a pension plan.

Under U.S. rules the sale of an interest in a “passive foreign investment company” (PFIC) for a profit, or receipt of excessive dividends, can potentially result in the profit, or dividends, being taxed at the maximum “ordinary” (graduated) income tax rates instead of the generally preferable long-term capital gains tax rates. Furthermore, there can be a “throwback” of tax to prior years and an interest charge for unpaid prior tax. Please contact us if you have questions and/or would like us to review your various investments to determine if you are required to file IRS Form 8621, are otherwise subject to the PFIC provisions, or if a “mark to market” or “qualified electing fund” election would be available or advantageous to you. **In certain cases where a U.S. income tax return is not required to be filed, Form 8621, the annual information return with respect to PFICs may still be required to be filed.**
